religious songsters, will sing at
Fassett's school-house Saturday
night before the first Sunday in August.

QUEEN POTATO.—Mrs. Jennie B.
Shrout, of Upper Prickly Ash, has
brought to this office last Saturday
eight distinct potatoes grown to-
gether. It is different from any-
thing in the State line that we
ever saw.

TOOK MORPHINE.—John Hamil-
ton, of color, took a suicidal dose
of morphine Monday night, but
was saved by the doctor. The doc-
tor's wife says his lady-love is said to
have caused him to attempt to
shuff off this mortal coil.

ONE OF UNCLE TALT'S JOES.—
One day recently a party observed
Uncle Talt Jones standing on the
curbstone in the deeply rutted
characteristic of him. Presently a
light broke over his countenance,
and a gentleman knowing that
indicated an explosion of wit at
the slightest touch, sauntered
up to Uncle Talt, who remarked
with a sigh of relief: "I have just
thought out what the Kitchen Cab-
inet are for: they are to put the
free silver in!"

TWICE IN THE SAME PLACE.—
Wm. H. Coyle, of Washington
Branch, was returning home from
town last Thursday, when the rain
drove him for shelter into the barn,
on the ridge north of the O. & W.
yoming turnpike, on his former
home farm. A large oak tree stand-
ing near the barn was struck by
lightning, knocking Mr. Coyle
down, but not injuring him more
than the temporary effects of the
shock. The same tree had been
struck once before by lightning.

AN EX-OWINGSVILLE.—Died, at
his home in Indianapolis, Ind., on the
12th inst., Judge Frederick Rand.
He was a noted lawyer and resided
in this place from 1842 to 1856,
when he moved to Indiana. Upon
his marriage in 1849 he resided in
the dwelling-house in the west end
now owned and occupied by Ben-
jamin Gudgell, and lived therein un-
til he moved to Indiana. For two
years before his removal he and R.
Gudgell were associated as part-
ners in practicing law. He left sur-
viving two daughters, and quite a
large estate.

UNFORTUNATE FAMILY.—Lightning
struck and killed Mrs. Mary Man-
ion, a widow living near Lewis-
burg, Mason county, last week. If
she was the widow of Martin Man-
ion (or Mannen), as it is believed,
her death appears to make her and
her husband's family a fated one.
While they were keeping the
Prickly Ash toll-gate on the O. &
Sharpsburg pike about 10 years
ago a sudden freshet in the night
saw the husband so that he start-
ed from the house, which was on
an island surrounded by the then
raging waters, and was carried
away and drowned with his little
son and little daughter.

A later report says Mrs. Manion
is recovering.

DESTRUCTIVE SNAKE.—On Tues-
day morning of last week the fam-
ily of Squire James B. Hughes,
south of town, heard a commotion
at their chicken coop. Upon re-
pairing thither to investigate some
dead chickens were noticed. It
was supposed that a mink was

was causing the destruction to the
poultry. The dogs were called, but
a further investigation disclosed a
large coon as the culprit. He was
killed and the chickens, crushed
under the life of the chicken.
The snake was killed, and an in-
ventory of its damages showed that
it had killed nineteen chickens
about large enough to fry.

THE WELL.—The well drilled
for a detached stone fastened in
their sand pump about fifteen feet
from the bottom and they could not
get it out. As a last resort they
were compelled to drill out the iron
pump. They ordered by wire a
new sand pump from Pittsburgh
and were still waiting for it Tues-
day evening. It would take but a
short time to finish the well to the
500-foot depth.

SAD DEATH.—A particularly sad
death was that of little Kate Coyle,
the bright five-year-old daughter
of Mr. and Mrs. Wm. H. Coyle, of
Washington Branch, Tuesday night
of last week. She was their young-
est child and would have been five
years old in August. She was a
remarkably precocious child and
was the idol of her parents, the
petted darling of their maturer
age. A particularly sad feature
of her bereavement was that it
occurred only twelve days after the
death of their son Tilford. They
have the sincere sympathy of all
in their heavy burden of sorrow.

DAMAGED BY THE RAINS.—The
excessive rains have damaged to-
bacco in this county to the extent
of hundreds of acres. Some grow-
ers will lose nearly their whole
crops, and the few who will escape
without some damage. The bottom
lands suffered the worst. However,
on the tops of hills, especially
where the blue clay is near the sur-
face, the tobacco is scalded out.

Also, the tobacco hanging in the
barns is much damaged by the
moist air; in fact, a good deal of it
has rotted.

Corn is scalded out in a great
many places in the low lands. The
oats crop has been much injured,
a good portion being ruined in the
sheep. Unthreshed wheat is con-
siderably injured; meadows also
suffered the worst. However,

threatening, and by consent of most
